Cash on Hand

Cash on hand is an eligible source of borrower's personal funds for Home Possible mortgages, so long as the following requirements are met:

- Underwriter reasonably concludes, and can support, that the borrower is a cash-basis individual and that the cash on hand is not borrowed and could be saved by the borrower
- The following documents are provided to support the Underwriter's conclusion:
 - A completed Exhibit 23, Monthly Budget and Residual Analysis Form, or another document containing the same information, confirming that the total monthly residual income available for savings is a positive number
 - Copies of six (6) months cash receipts (e.g. rent or utility receipts) or other alternative documentation (e.g. direct verifications or wire transfers) to verify that recurring obligations, including the payment of revolving and installment debt, are customarily paid in cash
 - A credit report, obtained at the time of application, showing no more than three (3) tradelines.
 - Copies of three (3) months' statements for any open revolving account that reveal cash advances are not the source of borrower funds. Any cash advances must be explained and documented (i.e. a cash advance used in an emergency situation).
 - An updated credit report obtained approximately one (1) week before closing that does not show any new accounts or a substantial increase to an existing account that approximates, or exceeds, the amount of cash on hand provided by the borrower.
- The Mortgage file must have no indication that the borrower typically uses checking, savings or similar accounts.
- Evidence that all funds used to qualify the borrower for the Mortgage transaction are deposited in a financial institution or are held in an institutional escrow account prior to closing.
